**REMARKS - General**

Also applicants have rewritten all claims to define the invention more particularly and distinctly so as to overcome the technical rejections and define the invention patentably over the prior art. Claim 21 is Claim 16 rewritten as an independent claim with all the limitations of the base claim and any intervening claims. The Examiner stated on Page 7 of the May 12, 2006 Office Action that Claim 16 was allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. New Claims 22 through 28 are limitations of these base claim and should be allowable based on the allowability of Claim 21.

**Conclusion**

For all of the above reasons, applicant submits that the specification and claims are now in proper form, and that the claims all define patentably over prior art. Therefore the applicant submits that this application is now in condition for allowance, which action is respectfully solicited.

Respectfully submitted,
